BUSINESS OWNERS

Maybe we should talk if...

- There are two or more business owners/partners without a Buy-Sell Agreement.
- The Buy-Sell Agreement requires the company to buy the stock from one of the shareholders.
- There is a sole business owner without successor management.
- There is uncertainty about the funding of a shareholders stock sale.
- A business owner has one or more children, involved in the business and other children that are not.
- Key management Retirement Plans do not include both Qualified and Non-Qualified programs.
